Laundry Services

Andrew from premier laundry services:

The service from Caterkwik

“The washing machines look great really pleased with them and the wide number of programs on them/ A big thanks to you for all your help you have been fantastic in advice and sorting out the order delivery works. First time customer of your company but due to your excellent customer service won't be the last. I have also passed your details to a friend of mine who is starting out in the business.”

The washing machines

Very happy with the range of programs on the machines. Idea for towels and bedding, the adding steam option is very good for stained bedding. They are excellent for duvets also which we do a lot of so will make life much easier. We have added these to our existing laundry machines but I will without a doubt be replacing them with these models in the future. Thanks again for the first class service.
